

## Erratum

## Erratum regarding missing Declaration of Competing Interest statements in previously published articles

Declaration of Competing Interest statements were not included in published version of the following articles that appeared in previous volumes of Addictive Behaviors Reports.

The appropriate Declaration of Competing Interest statements, provided by the Authors, are included below.

1. Lessons learned from unsuccessful use of personal carbon monoxide monitors to remotely assess abstinence in a pragmatic trial of a smartphone stop smoking app – A secondary analysis [Addictive Behaviors Reports, Volume 9, June 2019, 100122] <https://doi.org/10.1016/j.abrep.2018.07.003>

**Declaration of Competing Interest:** AH led the BupaQuit trial as part of her PhD that was funded by the British Heart Foundation at UCL. AH was employed at Bupa in a casual role as Research Partner and Expert Advisor during the BupaQuit app development and received funds from an unrestricted educational grant from Pfizer as part of Global Bridges Programme for capacity building. LS has received honoraria for talks, an unrestricted research grant and travel expenses to attend meetings and workshops from Pfizer and Johnson&Johnson, and has acted as paid reviewer for grant awarding bodies and as a paid consultant for health care companies. JB has received an unrestricted research grant from Pfizer. RW undertakes research and consultancy and receives fees for speaking from companies that develop and manufacture smoking cessation medications (Pfizer, J&J, McNeil, GSK, Nabi, Novartis and Sanofi-Aventis). He also has a share of a patent for a novel nicotine delivery device.

2. A preliminary cross-cultural study of Hikikomori and Internet Gaming Disorder: The moderating effects of game-playing time and living with parents [Addictive Behaviors Reports, Volume 9, June 2019, 100137] <https://doi.org/10.1016/j.abrep.2018.10.001>

**Declaration of Competing Interest:** The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

3. Psychometric assessment of the Internet Gaming Disorder diagnostic criteria: An Item Response Theory study [Addictive

Behaviors Reports, Volume 8, December 2018, Pages 176–184]

<https://doi.org/10.1016/j.abrep.2018.06.004>

**Declaration of Competing Interest:** The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

4. Dual diagnosis competencies: A systematic review of staff training literature [Addictive Behaviors Reports, Volume 7, June 2018, Pages 53–57] <https://doi.org/10.1016/j.abrep.2018.01.003>

**Declaration of Competing Interest:** The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

5. A structural MRI study of differential neuromorphometric characteristics of binge and heavy drinking [Addictive Behaviors Reports, Volume 9, June 2019, 100168] <https://doi.org/10.1016/j.abrep.2019.100168>

**Declaration of Competing Interest:** The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

6. Parenting styles and metacognitions as predictors of cannabis use [Addictive Behaviors Reports, Volume 11, June 2020, 100259] <https://doi.org/10.1016/j.abrep.2020.100259>

**Declaration of Competing Interest:** The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

7. Hispanic participants in the National Institute on Drug Abuse's Clinical Trials Network: A scoping review of two decades of research [Addictive Behaviors Reports, Volume 12, December 2020, 100287] <https://doi.org/10.1016/j.abrep.2020.100287>

**Declaration of Competing Interest:** The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
